cvanhorn293@gmail.com

Omaha, NE 68137 | 402.658.1712

Results-driven professional with 9+ years of design and 6+ years of development experience looking to build on my career in User Experience. Quick learner, highly organized, and efficient in analyzing problems and delivering solutions. Team player who thrives on collaboration, while also being a self-starter.

Work Experience

UX Visual Designer

Aug 2021 - Present

Mutual of Omaha | Omaha, NE

- Created user-centric designs focusing around user research and designer feedback that stayed within technical restraints.
- Built advanced interactive Figma prototypes using prototyping techniques such as conditional logic, expressions, variables, and actions. Prototypes used in A/B testing.
- Designed flows, wireframes, design mockups, and rapid prototypes that delivered on exceptional product experiences.
- Conducted usability testing, identifying internal/producer pain-points within the user experience inside of UserTesting.
- Collaborated between product management and engineering teams to help define roadmaps and prioritize project requirements.
- Developed new web components, applications, and pages from finished designs.

UX Web Designer

Jul 2015 - Aug 2021

Oriental Trading Company | Omaha, NE

- Developed interactive prototypes from wireframes for handoff to the development team.
- Assisted back-end developers to help build out completed JSP/JSTL prototypes.
- Designed site features and functions using wireframing techniques to visualize solutions.
- Created and updated process flows to optimize workflows and enhance efficiency.
- Conducted user research to identify issues with the current website application, improving user experience.
